## Declaration of Grievance

**New California is a new state in development exercising it's Constitutional Right to form from the State of California. The process to form New California is authorized and codified in Article IV Sections 3 & 4 of the United States Constitution.**

Whenever any Form of Government becomes destructive it is the Right of the People to alter or to abolish it, and to institute new Government.

When a long train of abuses and acts to seize and hold the people's power without legal authority and pursuing invariably the same Object that clearly demonstrates a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security.

So it is the history of the past and present Governor and Government of California has a history of repeated injuries and usurpations, all having in direct object the establishment of a Tyranny over the Counties of New California and the State of California.

Whenever any Form of Government becomes destructive of these ends, it is the Right of the People to seek a constitutional remedy to the abuse of powers.

The Citizens of New California have decided to remedy the abuse of power by the government of California by exercising their right to form a new state provided in United States Constitution Article IV Section 3 States and United States Constitution Article IV Section 4.

Therefore the Counties of New California bring forward 40 Grievances against the government of California to be announced in public on Tuesday at 11:00 am each week for 40 weeks.

## **Declaration of Grievance**

United States Constitution Article IV Section 4 States:

*The United States shall guarantee to every state in this union a republican form of government, and shall protect each of them against invasion; and on application of the legislature, or of the executive (when the legislature cannot be convened) against domestic violence.*

## **Failure of the government of California to provide a republican form of government**

The California government through gross malfeasance has created a financial tyranny in the State of California through excessive taxation, over regulation and unlawful enforcement by regulators. Working in concert with an unconstitutional judiciary and corrupt state officials the California governor has used this system of “tools” to orchestrate a massive exodus of businesses and Citizens out of California thus devastating the great California economy.

Millions of Californians who have suffered this long train of financial abuses at the hands of this current governor have seen their businesses, families and whole communities destroyed. The evidence of this financial tyranny is found all over California where hundreds of thousands of Californians are now left homeless and living in third world conditions along river banks, under freeway overpasses and where shelter can be found. It is a desperate humanitarian crisis all caused by a tyrannical form of governance.

**The current California governor working with the tools of financial tyranny has utilized a corrupt election system to alter the California Constitution through ballot propositions to extract money from the Citizens of California and use that money in ways in which it was never intended. Billions of California tax dollars are being squandered and mismanaged by the current governor on “pet” projects such as the bullet train to nowhere by providing an open check book to the states corrupt taxing system.**

**Ballot propositions and excessive taxes have been approved by a mono party legislative process and signed into law unconstitutionally by the current governor. Working in collusion with the mono party and state officials the governor diverts money from its intended uses to corrupt schemes and programs which only benefits the mono party system to the detriment of California Citizens.**

**Diverting billions of dollars away from infrastructure projects the California government and current governor have caused an 83% decline in infrastructure spending since 1975. California roads, schools, prisons, dams are now in sharp decline and are endangering the lives of California Citizens.**

## **Failure of the government of California to protect each Citizen against invasion**

**The current California governor sees himself as the *president* of California and grants himself the authority to negotiate agreements with foreign sovereign governments. The United States Constitution grants this authority to the President of the United States of America and NOT to the governor of any state.**

**This concludes these proceeding.**
