New California is a new state in development exercising it's Constitutional Right to form from the State of California. The process to form New California is authorized and codified in Article 4 Section 3 of the United States Constitution.

After years of over taxation, regulation, and mono party politics the State of California and many of it's 58 Counties have become ungovernable. The nature of the State becoming ungovernable has caused a decline in essential basic services such as education, law enforcement, fire protection, transportation, housing, health care, taxation, voter rights, banking, state pension systems, prisons, state parks, water resource management, home ownership, infrastructure and many more.
